Plan reviews covering the requirements of mechanical and plumbing codes are available, each for a fee of 25% of the applicable building code review fee. Plan reviews for the requirements of the electrical code shall be provided at a fee of 35% of the applicable building code review fee, excluding reviews for any use included in the I (Institutional) use group classification. Reviews done for the excluded use classification shall be based upon the degree of complexity.

Special pricing may be given to such buildings as warehouses due to their relative simplicity or to structures with repetitive features such as high rise buildings.

A preliminary plan review is available for a fee of 50% of the full plan review fee cost. Preliminary plan review addresses such code requirements as: use and occupancy classification, type of construction, height and area calculations, means of egress and fire restrictive construction requirements.

The preliminary plan review fee shall be credited towards the cost of a complete building code plan review conducted by Commonwealth Code Inspection Service, Inc.
